- b. Eight armored reconnaissance cars, three personnel carriers, six sidecar motorcycles and one jeep with officers proceeded from the area southeast of PRIORT (N 53/Z 54) in the direction of the kasernes about noon.

- * Comment: It is assumed from other information that component units of the division stationed in the DOEBERITZ area (1st Mecz Div) were on maneuvers (FUERSTENBERG-ZECHLIN area?) in mid-July 1949. This assumption is corroborated by the information that 21 tanks and one radio truck Div were entrained on 14 July 1949.
